IIP:
Zambian Institute for Sustainable Development
Lusaka, Zambia

CHRISTINA WALTER, CLASS OF 2018
Work Responsibilities

- Developed and taught a course in software & web development with fellow intern
  - Created lecture slides
  - Lectured
  - Guided students through practice exercises

A student presents his idea for an app (photo by ZISD Media Centre)
Most Rewarding Aspect of Work Experience

- Most students began with no coding experience, and some arrived without knowing how to type or use a laptop.
- They took away the valuable skill of coding basic Java and web.

My Impact on ZISD

- My work allowed the organization to offer a course in software development to seventeen underprivileged Zambian students.

Impact of the IIP on Me

- I discovered that I greatly enjoy working and experiencing life abroad
- I am now considering pursuing a career that deals with development and/or involves developing countries

Concluding Remarks

- Living and working in a developing country gave me a great deal of cultural awareness and a new perspective for which I am very grateful!
